

The Colorado Carbon Fund

1. Develop a funding source for clean energy and climate mitigation projects;
2. Provide direct investment for Colorado-based projects;
3. Support the State's Climate Action Plan to mitigate climate change;
4. Provide high-quality offsets for individuals, businesses, and government agencies seeking to cut their carbon footprints.

Community Benefit Projects

- Invest in climate mitigation projects;
- Invest in our local economy;
- Support much needed projects before they have verified offsets;
- Sequester carbon by supporting regenerative agriculture

Purchase an Advancing Clean Energy license plate today

- Donate \$25
- Offset a metric ton of carbon emissions
- Support a local Climate and Community Benefit (CCB) project.
- Display your support for clean energy on your vehicle.
